The **Superpowers** of AdSpyder

Evaluate your campaigns and determine how well they stack up against your competitors. Get the answers to some very important questions:

- Do my competitors have more exposure than I do?
- What markets are the other brands targeting?
- Is there a magazine or a website that my competitors are in that I am not?
- What is their message? Is mine just as strong?
- How large are their ads compared to my own?
- Does my competition get better ad placement than I do?

You are only a phone call away from getting everything you need to become the next advertising Superhero.
